## Master Case Challenge 2019

A big part of the Master Introduction Week is the yearly Master Case Challenge, which will take place on Thursday, 29th of August 2019. During the Master Case Challenge, the different study programs will be divided into seven different and relevant cases where each study program will be further divided into smaller groups in which the students can concentrate on the specific case while competing against the other groups.

After the case-solving, a selection of the best solutions will be made by the case companies after which the groups will be asked to present their solutions for the companies on Friday, the 30th of August. Later this day the winner of each case will be presented on stage by the respective company.

For the winners of all seven cases, there will be an opportunity to network with the participating companies at the Case Challenge Lounge where there will be some refreshments and tapas.

***You will find further information about the case company related to your study line here:***
